Our Material

The Fabric The Frame The Cushion

Durability and stain resistance without the sacrifice of style and soft subtle texture is key when selecting upholstery. It's really important as a designer to understand a client and their family. How will they be using their upholstery? Sitting,

We fully exploit the advantages of the material: mouldability, rigidity, pleasant tactile qualities, suitability for industrial manufacturing methods. With this material, which was previously unknown in the furniture industry, they successfully developed the shell designs for serial production.

Waterproof Easy to maintain

10 year warranty Scratch-resistant

The Process

Our passion for quality furniture has been at the heart of every Couchfuture design for more than 40 years.

Our exclusive collection, handcrafted of solid walnut, is a beautiful example of our respect for the origins, character and grace of the natural woods we choose. Masters at the centuries-old art of wood-on-wood joinery, our craftsmen precisely fit these classic dovetail joints to allow for climate expansion and contraction while adding value and beauty.
